Professional Profile

Senior Frontend Engineer and Team Lead specializing in architecting scalable web applications, designing reusable UI component libraries, and optimizing performance for complex data flows. Deep expertise in React ecosystems, modern CI/CD deployment pipelines, and cross-functional leadership. Proven track record of guiding junior developers, conducting rigorous code reviews, and delivering intuitive, high-performance, user-centric solutions.

Core Competencies

Experience Timeline

- Full Stack Developer | Efund Technical Services** Dec 2023—Dec 2024
 - Led the frontend architecture, UI design, and development of a scalable CRM web application leveraging Next.js, TypeScript, and MUI.
 - Architected dashboards, workflow engines, and administrative tools tailored to complex business requirements and AI workflows.
 - Overhauled GitLab CI/CD pipelines to optimize deployment workflows and integrated secure APIs via Node.js and AWS.
- Web Development Tutor | Soft Learn Path** Nov 2022—Sep 2023
 - Mentored 100+ learners on frontend best practices, focusing on React, React Native, JavaScript OOP, and modern CI/CD deployments.
- Software Developer | OmniPay/Datman** Oct 2021—Aug 2022
 - Engineered customer-facing frontend components using ReactJS, establishing reusable design patterns across the platform.
 - Spearheaded deployments and production monitoring, coordinating feature rollouts with sales and marketing teams.
- Full Stack Developer | QNature** Apr 2021—Jun 2021
 - Built a ReactJS/React Native eco-commerce platform integrating Firebase auth, real-time updates, and cloud storage.
- Full Stack Developer | ATroads** Oct 2020—Feb 2021
 - Developed modules for live tracking and route planning utilizing ReactJS, React Native, and Node.js.
 - Optimized global application state and caching to significantly improve rendering performance.
- Frontend Developer | Sensen Networks** May 2020—Mar 2021
 - Led UI modernization for legacy traffic monitoring platforms into high-performance, real-time analytics dashboards.
- Full Stack Developer | Nestor Analytics** Oct 2018—Apr 2020
 - Developed analytics modules, dashboards, and customer-facing data tools utilizing the MERN stack.
 - Managed server setup, deployment pipelines, and version control.
 - Built modular API structure ensuring security and maintainability.
 - Communicated regularly with clients for requirement analysis and delivery planning.
 - Designed end-to-end features from database to UI, ensuring seamless user experience.

Education

B.A. English | 2025 – 2028

B.Tech. CSE | 2015 – 2019

Sri Chaitanya Junior College | 2013 – 2015
